FIG

MANGO

POMEGRANATE

STRAWBERRY

### **:: All Natural - 65% fruit content ::**

Jams made from selected fruits from regional and company farms and exotic mango from India. At least 65% fruit in each jam, which is notably high, ensuring a rich, authentic taste and texture.

### **:: Mild Vacuum Processing ::**

Used at controlled temperatures of 60-65°C minimizes thermal degradation and employed to preserve the vitamins and nutrients of the fruit, maintaining the health benefits and natural flavors.

### **:: Aroma Reinserted ::**

By condensing and reusing vapors from vacuum boiling we are capturing and reintroducing natural fruit aromas back into the jam which brings higher concentrations.

### **:: Reverse Osmosis (RO) ::**

Through reverse osmosis, sugar is infused into the fruit cells without breaking them which brings Homogeneity and Preservation of Fruit Integrity.

### **:: High Sterility and Shelf Life ::**

By using Hot-Filling with IML packaging for 6 kg bucket.
