FRUIT PURÉES
& MOCKTAILS

65% REAL FRUIT - MORE THAN ANY OTHER PRODUCER

The **VERMION** fruit purees produced with an unmatched **65% FRUIT CONTENT**, our purées deliver bold, concentrated flavors balanced with natural acidity - offering an unrivaled taste experience that truly stands out.

::: High Fruit Content (65%) :::

With 65% real fruit, the slushes deliver a truly authentic taste experience, offering superior natural flavor and nutritional value compared to competitors that rely on less fruit and more artificial additives. Their high fruit content ensures a pure, genuine fruit taste every time..

:: Concentrated & Enhanced Flavor ::

Each flavor is carefully concentrated through vacuum boiling, capturing the essence of the fruit for a strong yet perfectly balanced profile—ideal for cocktails. Naturally enhanced and true to their fruit origins, our purées shine in both timeless classics and innovative new recipes.

:: Balanced Acidity & Complexity ::

Made with inverted sugar, our purées seamlessly complement alcohol in cocktails, adding balance and depth without the need for extra adjustments in sweetness or acidity.

:: Pure & Safe by Nature ::

Every color, flavor, and preservative comes exclusively from certified, plant-based ingredients - fully approved for food safety and regulatory standards. 100% natural, 100% trustworthy.

:: Ready-to-Use Convenience ::

Our purées are designed for effortless use: simply remove the foil seal under the cap and pour. Also available with practical dosing caps, they save time, reduce prep, and prevent spills—perfect for busy bar environments where every second counts.

: Perfect for Cocktails & Smoothies ::

From tropical blends to refined citrus creations, our purées give mixologists the versatility they need to craft cocktails and smoothies bursting with authentic fruit intensity..

:: Freshness and Quality ::

We are committed to using only the freshest ingredients, delivering the highest benefits in every product. Beyond meeting our strict quality standards, this approach also reflects today's consumer trends toward health, sustainability, and authenticity. By securing seasonal supply agreements, we guarantee a steady flow of fresh fruit without relying on long-term storage - preserving both flavor and quality. For all other ingredients, we partner exclusively with trusted producers who share our values and provide top-quality materials backed by multiple certifications.

:: Supporting Local Communities ::

By expanding our partnerships with local farms across Greece, we not only strengthen our supply chain but also give back to the agricultural economy, building stronger community ties and supporting long-term resilience. Local sourcing also means shorter transport routes - helping us lower CO₂ emissions and create a more sustainable supply chain.

:: Plant-Based Ingredients ::

Sourcing 100% plant-based ingredients isn't always easy -it can be costly and complex- but it's a commitment we proudly stand by. Whenever our recipes call for sugar, colors, flavors, gelling agents, preservatives, or other essentials, we always choose plant-based solutions. Each one is safe, fully certified, and designed to deliver the perfect texture, color, taste, aroma, shelf life, and consistency-naturally.

:: Natural Colors and Flavors ::

Distillation and reintroduction of aroma ensure that each juice preserves and amplifies its natural fragrance - an essential element in cocktail flavor.

:: pH Adjustment ::

By selecting only plant-based colorings and flavorings, we steer clear of artificial additives and enrich our products with authentic taste and health benefits. The result: vibrant colors, fresh aromas, and an elevated sensory experience you can truly enjoy.

:: Unique Innovation ::

Their exceptional qualities make them ideal for experimenting with new cocktail recipes or reimagining classics, leveraging their intense aroma and distinctive flavor profile.

:: Natural Acidity & Preservation ::

For acidity and preservation, we once again choose only certified, plant-based ingredients. Our preservative of choice is natural potassium sorbate - 10 times more expensive to produce than artificial alternatives, but infinitely better. And thanks to the unique benefits of our inverted sugar, we use it at just one-fifth of the recommended dosage - ensuring safety, quality, and pure enjoyment in every sip.

:: Commitment to Superior Quality ::

Our commitment lies in quality, excellence, and customer satisfaction. We work tirelessly to guarantee that every product leaving our facility meets the highest standards. **Vermion** is ISO 22000 certified, standing out for its unwavering dedication to premium quality and innovation.
